AAR Defense Systems

Certification New Material:

- Customer requires an AAR ATA106 (if applicable) signed on the left side. Non-Incident Statement (NIS) and Non-Military Statement (NMS) should both be removed from ATA106.
- OEM certs must properly display all critical data including serial numbers, batch numbers, lot codes and correct date codes when applicable.

Part Inspection & Packaging:

- DS&L requires 100% outbound inspection for kind, count, and condition, OEM Packaging must be opened to verify compliance unless the parts or product are preserved and need to remain sealed.
