Chromalloy Georgia

- Customer will accept a copy of the 8130.
- Chromalloy requires a full repair on all PW2000 compressor blades stages 10-17. The 8130-3 must state that the tip weld repair was performed (repair 05).
- For PW2000, V2500, and CF6-50: Chromalloy DERs are acceptable.
- Material certification and non-incident statement from last operator are required.
- Removal tag is not necessary.
