PROPONENT (Formerly KAPCO)			

Certification Requirements:

- Any material that is eligible for an FAA 8130-3 must have one included with the shipment, this applies to any and all products including but not limited to Arkwin Kit components/subcomponents.
- Proponent requires a CTC for any ARC that is being split.

AAR ATA 106 Remarks:

- ATA106 Remarks must reference ARC (8130-3, etc.) Tracking Number and PO Number.
- If part package or ppwk is marked with a cure date, the cure date must be noted in remarks section of AAR ATA106 (see below).

Shelf Life:

- Proponent requires material with shelf life to have 80% shelf life remaining.
- Cure date must be noted in remarks of AAR ATA106 (see above).

Country of Origin:

- QC must verify that COO as reflected in the IM0020 (Maintain Inventory) screen matches the paperwork and/or part markings if noted, see supervisor for questions. If part marking lists one COO and ppwk lists a different COO then write an NCR.
